By Order,
T. K. SOMESWARA IYER,
For *Secretary to Government,*
Local and Legislative Departments.

REVENUE SECRETARIAT.

No. I. C. 8281—A. E. 414-24-6, dated Camp Mysore, 8th June 1925.

In exercise of the powers conferred by Section 4 of the Destructive Insects and Pests Regulation, VI of 1917, the Government of His Highness the Maharaja of Mysore are pleased to direct that the following rules shall apply to the villages notified in Notification No. I. C. 8280—A. E. 414-24-5, dated 8th June 1925 and published in the *Mysore Gazette* dated 11th June 1925 and will continue to be in force, throughout the period of operations, against the *Kamblihula* Pest, in the notified area:—

As soon as the earliest mungar rains have fallen a diligent search should be made daily in the morning or evening by the owner, occupant, or cultivator for the *Kamblihula* moths which should be picked and placed in a vessel containing water with a small quantity of Kerosine floating on the surface. All moths so collected should be handed over to the patel of village for inspection by the officer in charge of operations.

Each raiyat or landholder must arrange for a daily collection of moths on his own lands.

The operations in the area declared will be in charge of an officer of the department. The work in each village will be under the charge of the patel of the village or a man appointed to work under his direction, who will keep the record of work done on each holding and of the number of moths picked.

In cases where raiyats or landholders neglect to carry out the above operations a report will be made to the Amildar by the Patel, unless delay is likely to prejudice the operations in which case the Patel of the village should make the necessary arrangements to pick the moths and intimate the cost to the Amildar. The Amildar will arrange to get the work done

by the raiyat concerned but if he fails to do the work, this may be done by Government Agency and the expenses incurred will be charged to the owner, occupant or cultivator concerned and may be collected as arrears of land revenue.

Payments will be made for the moths picked at rates fixed by the officer in charge.

Picking will continue for 45 days or until such time as in the opinion of the officer, there is no danger of further emergence of the moths.

Villages notified under the Act which, in the opinion of the Director of Agriculture, are not likely to suffer from the pest will be excluded from the operation of the Regulation.

Copies of a circular giving full information with regard to the pest and the measures to be taken against it will be distributed to the raiyats of the villages concerned.

The officer in charge of the operations will be stationed at a central place (Bowringpet) throughout the period during which combative measures against the pest have to be continued. He will visit the villages and will explain to the raiyats in detail the requirements for effectively dealing with the pest, the labour required, the period during which operations will have to be carried on and all other information necessary for the efficient control of the pest.

Infringement of any of the above rules is an offence under Section 5 of the Regulation.

No. I. C. 8280—*A. E.* 414-24-5, *dated Camp Mysore, 8th June* 1925.

In exercise of the powers conferred by Section 3 of the Destructive Insects and Pests Regulation, VI of 1917, the Government of His Highness the Maharaja of Mysore, are pleased to declare the undermentioned 89 villages in the Kolar District to be infected with the *Kamblikula* pest which attacks all dry crops. This notification will be in force for a period of three years, *viz.*, up to the end of December 1927.
